www.linkedin.com/in/rannimontagna

Full Stack Developer with over 3 years of experience in web and mobile applications, specialized in React, React Native, TypeScript, and Node.js. Experienced in end-to-end solution development, from conception to delivery, focusing on performance, scalability, and user experience. I have contributed to the creation of design systems, complex integrations, and process automation, reducing operational errors, accelerating deployments, and increasing team efficiency. Strong cross-functional collaboration, problem-solving, and technical mentorship skills, driven by challenges that combine technology with real user impact.

Professional Experience

OCTOBER 2023 — PRESENTE

Mid-Level Developer | Luizalabs (Magalu)/ 💻 Remote

I work on developing and evolving web and mobile systems that support physical store operations, focusing on inventory and logistics. Contributed to building performant and intuitive interfaces that reduced operational errors and optimized store workflows. Maintain and enhance Node.js APIs and micro frontend architecture, improving resilience, stability, and deployment speed. Collaborate directly with UX, backend, and product teams to ensure deliveries align with business goals and user experience.

Tech Stack: React, React Native, Node.js, Go, TypeScript, REST APIs, Git, CI/CD

MAY 2022 — SEPTEMBER 2023

Front-end Tech Lead | Smarten/ 🏢 On-site

Led the front-end development of SaaS solutions, standardizing coding practices, guiding the team, and making strategic architectural decisions. Developed a corporate Design System based on Material Design adopted by multiple products. Implemented CI/CD pipelines and continuous monitoring, reducing deployment time by 40% and increasing delivery reliability. Conducted code reviews and technical mentoring, accelerating onboarding of new developers and improving overall code quality. Translated business requirements into high-impact solutions.

Tech Stack: React, JavaScript, TypeScript, TailwindCSS, Storybook, CI/CD, Monitoring

MAY 2021 — MAY 2022

Front-end Developer | SBSistemas/ 🏢 On-site

Developed corporate web and desktop applications, consolidating technical skills and understanding the complete development lifecycle. Built modern interfaces with React and Electron, reusable components, and refactored screens for better performance and maintainability. Adopted version control best practices (GitFlow) and coding standards, while supporting requirements analysis and usability testing, strengthening communication between technical and business teams.

Tech Stack: React, Electron, TypeScript, JavaScript, CSS, Git

Technical Skills

Frontend: React, Next.js, React Native, TypeScript, Tailwind CSS, Material UI, Electron
Backend: Node.js, Fastify, Prisma, PostgreSQL, JWT, REST APIs
Design & UX: Figma, UI/UX, Design Systems, Accessibility
Tools & DevOps: Git, Docker, Postman, Vercel, CI/CD, Monitoring
Other: Storybook, Web Extensions API, PDFKit, Discord.js

Educação

2020 – 2022

Systems Analysis and Development/**Universidade de Passo Fundo** – RS, Brazil
Graduated with solid knowledge across all stages of the software development lifecycle, including requirements engineering, system design, implementation, testing, and deployment. Gained practical experience in programming for web, desktop, server, and mobile platforms, as well as database management, agile methodologies, and project management. Prepared to deliver scalable, efficient, and user-centered software solutions across multiple industries and IT challenges, with a strong focus on quality, performance, and innovation.

Certifications

JULHO DE 2025
Android/**FIAP**
Credential ID: fa50e3245af4000867e134bde919fbbf
Skills: Android · Kotlin · Jetpack Compose · Mobile Architecture · UI/UX Design

JANEIRO DE 2024
React Native/**Rocketseat**
Credential ID: fa50e3245af4000867e134bde919fbbf
Skills: React Native · Cross-Platform Development · State Management · API Integration

NOVEMBRO DE 2023
Node.JS/**Rocketseat**
Credential ID: fa50e3245af4000867e134bde919fbbf
Skills: Node.js · APIs · Database Integration · Authentication & Security · CI/CD

MAIO DE 2023
React/**Rocketseat**
Credential ID: 2fa76373-36e2-463b-9164-fdb1c846369d
Skills: React.js · Next.js · Redux · Responsive Design · Performance Optimization · UI/UX Best Practices
